# Social Sciences and Humanities Open Cloud

Realising the Social Sciences and Humanities part of the European Open Science Cloud

Carsten Thiel CESSDA ERIC

CLARIN Annual Conference 10<sup>th</sup> October 2022

This project is funded from the EU Horizon 2020 Research and Innovation Programme (2014-2020) under Grant Agreement No. 823782

Horizon 2020 European Union Funding for Research & Innovation

### Type of action & funding: Research and Innovation action (INFRAEOSC-04-2018)

- creating the social sciences and humanities (SSH) part of European Open Science Cloud (EOSC)
- maximising re-use through Open Science and FAIR principles (standards, common catalogue, access control, semantic techniques, training)
- interconnecting existing and new infrastructures (clustered cloud infrastructure)
- establishing appropriate governance model for SSH-EOSC

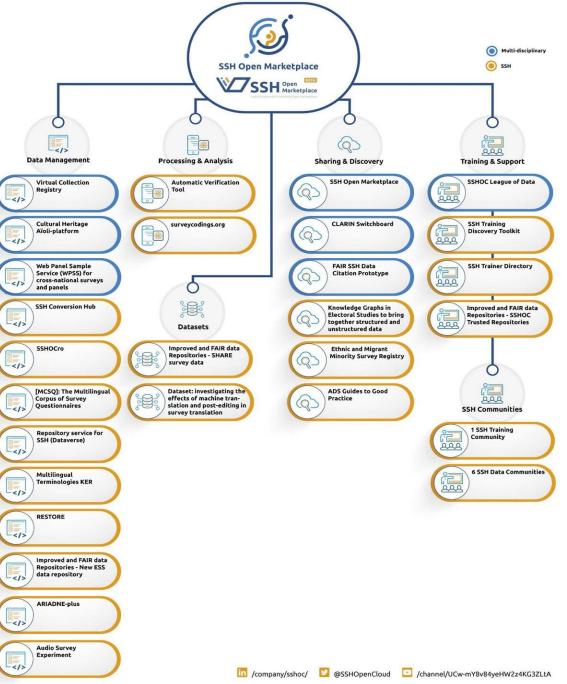

## **SSHOC** Results

33 SSHOCing Key Exploitable Results to support your research in SSH and Beyond

- available for further research activities after the end of the project
- covering data management, sharing & discovery, training & support, processing & analysis and SSH Communities
- all tools are being made accessible via the SSH Open Marketplace and 13 of them onboarded on EOSC Portal

https://www.sshopencloud.eu/service-catalogue

social sciences & humanities open cloud

#### This project is funded from the EU Horizon 2020 Research and Innovation Programme (2014-2020) under Grant Agreement No. 823782

### SSH Open Cluster

- **Memorandum of Understanding** for SSH Open Cluster (ERICs signed)
- Currently: Establishing the Governing Board and Rules of Procedure
- Next steps: Chair elections and Annual Work Programme
- **Maintaining SSHOC results**
- Trust among partners and communities
- Access to and overview of all **results & stakeholders**
- Providing further access to new members
- Making sure the community lives long after the project

Memorandum of Understanding for the establishment of the SSH Open Cluster

#### PREAMRIE

The Social Sciences and Humanities (SSH) ESFRI Landmarks and Projects, as well as relevant international SSH data infrastructures and other stakeholders gathered in the Horizon 2020 project Social Sciences and Humanities Open Cloud (SSHOC) want to preserve SSHOC project's numerou outputs, make them sustainable, and exploitable.

aim of the SSHOC project was to create a European open cloud ecosystem for social sciences an humanities, consisting of technical and social components, to maximise re-use of SSH data through Open Science and FAIR principles, to interconnect existing and new SSH infrastructures, and to stablish the governance for the SSH part of the European Open Science Cloud (EOSC).

- The undersigned European Research Infrastructure Consortia (ERICs)
- Consortium of European Social Science Data Archives (CESSDA) Common Language Resources and Technology Infrastructure (CLARIN),
- Digital Research Infrastructure for the Arts and Humanities (DARIAH)
- European Social Survey (ESS), and
  Survey of Health, Ageing and Retirement in Europe (SHARE),

ereinafter referred to as the Parties and acting as the founding members, have hereby agreed as

#### Article 1. Scope and Objectives of the MoU

The overall objective of this MoU is to prepare the establishment of the SSH Open Cluster to further intensify collaboration between different SSH community stakeholders and to take an active role in promoting quality and impact of SSH within the European Research Area and beyond. It will enhance mutual interaction, further explore synergies and expertise, and support sharing of know-how in all areas of common interest.

· Maximise support to the SSH research communities and optimise the use of resources to sharing relevant developments and results.

- · Identify common challenges affecting the SSH domain and collectively develop responses to these challenges.
- · Support joint visibility and branding in the area of SSH.

e European Research Infrastructure Consortium (ERIC) is a specific legal form that facilitates the establis of Research Infrastructures with European Interest. ERICs carry out research programmes and projects and represent added value in the development of the European Research Area (ERA) and significant improvement in the SS1 field with effective access granted to the European research community in accordance with the rules established in the statutes. ERICs actively contribute

### From SSHOC to the SSH Open Cluster

Breaking down community silos to advance Social Science and Humanities Research
