

CLARIN CAC

- assessment requests
 - 9 requests from CLARIN D
 - 1 request from CLARIN CZ
 - more requests to come (NL, ??)
- state of assessment work
 - tests with 2 D Centers to test process, coherence, required time, etc.
 - some key messages
 - assessment is feasible (good coherence, not too much time)
 - good coherence amongst reviewers
 - streamlining of evaluation form
 - pointers to web site with explicit statements is relevant
 - useful services for CLARIN (who makes a statement?)
 - policy and IPR statement
 - state of technological and funding support
 - do services fit in daily research work (who makes a statement?)

CLARIN CAC

Topic		R1		R2		R3	
1a	relevance for CLARIN	statement by LK		via web-site	5	not in application, but in center registry	5
1b	repository system	need a statement of support, strength etc		via web-site	4		4
1c	state of OA and IPR	missing statement		via web-site	5	not in application, usage rules on web-pages	2
1d	techno + funding support	missing statement		explicit duration statement missing	4	missing statement	0
1e	integration in research workflows	missing statement		via web-site	5	not in application, but on web-sites	1
2	server certificates		yes	partially encrypted page	yes		yes
3a	SAML SP		yes		yes		yes
3b	CLARIN IP		yes		yes		yes
3c	login from own IP	seems to progress	no		no	cannot test this, since is not part of CLARIN	
4	DSA	requested at 22.2.2013	no	requested	no	requested	no
5a	OAI-PMH	all resources by CMDI, md points to LP - why not to resources, can resources be accessed by PID and MD?	yes		yes		yes
5b	md validation		yes		yes		yes
5c	harvesting ok		yes		yes		yes
5d	CMDI validation		yes		yes		yes
6a	PID for MD files		yes		yes		yes
6b	PID for resources/landing page	why not PID pointing to resources	yes		yes		yes
7a	SRU/CQL endpoint		yes		yes		yes
7b	endpoint validate	minor problems	no	minor problems	no	not able to test due to missing login	
Summary		the applicants need to provide more direct pointers to information, for the rest most of the integration tasks have been done convincingly					

CLARIN CAC

Topic		R1		R2		R3	
1a	relevance for CLARIN	statement by LK		via web-site	5	statements on the web page	
1b	repository system	need a statement of support, strength etc	4	via web-site	4	no explicit statement, but DSA achieved	
1c	state of OA and IPR	missing statement		via web-site	5	no info	
1d	techno + funding support	missing statement		no explicit statement	3	no info	
1e	integration in research workflows	missing statement		via web-site	5	no info	
2	server certificates		yes		yes		yes
3a	SAML SP		yes		yes		
3b	CLARIN IP		yes		yes		
3c	login from own IP	seems in progress- when?	no		no	cannot test this, since is not part of CLARIN	
4	DSA	seal obtained	yes	seal obtained	yes	very new info	yes
5a	OAI-PMH	all resources by CMDI, high granularity, MD points to landing page and not resource, access to resource by PID/MD?	yes	26 errors occur - major problems	yes	OAI-PMH endpoint not found	
5b	md validation		no		no		
5c	harvesting ok		yes		yes		yes
5d	CMDI validation		yes		yes		yes
6a	PID for MD files		yes		yes		yes
6b	PID for resources/landing page	granularity of PID association, why not PID to resources, have PID for MD and LP - how crossref?	yes		yes		yes
7a	SRU/CQL endpoint	time planning?	no	not started yet	no		no
7b	endpoint validate						
Summary		the applicants need to provide more direct pointers to information, there are a few essential aspects which are not ok yet

NL	5 requests expected								

- first chunk (9 D requests) until May 10th
- second chunk (CZ, NL, ??) afterwards
- please provide explicit answers and pointers to web sites
- at first round no formal summary (gold, silver, bronze)
